## Reward (Q&A)

Q: Why is the reward separate to online and offline?

A: Because we want to provide a wider range of choice to the users. So the people who prefer online shopping can choose online coupons, and the people who often go to the market can choose the offline bar code to enjoy the discount.

Q: Why i cannot redeem any online rewards?

A: Please check again your reward balance which displayed on the top left that you have enough points to redeem the reward you want.

Q: Why the offline bar code is not working?

A: Sorry for the inconvenience, you might have to find one of the staff in the shop to fix the problem.
